Playdough Roads

Supplies:

- Playdough – optional coffee grounds and food coloring
- Cars, trucks, people, animals
- Paper and popsicle sticks (for homemade signs)

Directions:

- Mix used coffee grounds with playdough, this activity is great for reusing playdough that has been mixed together and is gray/brown
- Set out the materials and invite your child to build a road. We used yellow paper scraps to make the road markings
- If you don't have road signs you can make your own
